Antivirus and Antispyware

Features antivirus and antispyware plug-ins for Kerio Connect (SMTP and POP3 protocols) and Kerio Control (HTTP and FTP protocols)

A single scanning engine services all scanning requests from Kerio Connect / Control

Provides full-fledged server-as-client protection

Powered by the advanced ThreatSense® technology combining speed, accuracy and minimal system impact

Remote Administration

Provides full support for ESET Remote Administrator

Remote installation, automated integration with Kerio Connect / Control

Windows Installations Dual Support

Requires only one instance of ESET security solution if both Kerio Connect and Kerio Control are installed on the server

Smooth Operation

Allows you to customise settings via Kerio administration console

Automatically cleans or deletes any infected objects (attachments)

Downloads updates from the Internet or from the local mirror server

Uses the same update packages as other ESET security solutions
